How to use your vibrating cock ring

- Charge the cock ring by plugging the USB cable into a USB charging point, and the electrical connector into the side of the toy.
- The light will flash while charging. When the flashing stops and the light is solid, your cock ring is fully charged and ready to use.
- The toy will take approximately 120 minutes to fully charge, and will give you 40 minutes of play.
- Lubricate your penis and testicles and slide the smaller ring down to the base of your penis with the textured pad facing away. Stretch the larger ring around your balls.
- Hold down the power button on the back of the toy to start the vibrations. Press repeatedly to move through the 3 speeds and 9 patterns. Press and hold the power button to turn it off.
- To activate the travel lock, double click the power button when the toy is switched off. Repeat or plug into a USB port to deactivate it.
- Use with water-based lubricant to enjoy your toy at its best. Clean after use with sex toy cleaner and leave to air dry until next time.
